

THE SOAPNUT SHOP

SUSTAINABLE HARVEST  WILD CRAFTED 
BIODEGRADABLE  COMPOSTABLE 

soap grown by nature

What are SoapNuts?

SoapNuts are small berries that fall from the SoapNut tree growing wild in Northern India.

The berry is gathered by hand, dried by the sun, and then deseeded.

SoapNuts contain saponin that release mild soapsuds when wet.

Soapnuts have strong antibacterial properties that effectively replace chemical detergents and soaps.

Why use SoapNuts?

100% SoapNut Berry

No added chemicals, fragrances, dyes or fillers.

Planet Friendly

Breaks down grey water in septic tanks, biodegradable, compostable, sustainably harvested and shipped to New Zealand.

Saves water

No rinse cycle required when you laundry with SoapNuts, saving litres of water every wash.

Cost effective

It costs from as little as 11 cents to wash a load of laundry.

**Based on 1kg bag of Soapnuts = 365 washes*

All purpose cleaner

Use as a laundry & dishwasher detergent, general household cleaner, shampoo, jewellery cleaner, window & glass cleaner, carwash, plant wash, pest repellent, food detoxifier & liquid soap.

Non-Allergenic

With no added perfume or chemicals SoapNuts are kind to your skin and suitable for allergy & eczema sufferers.

Using SoapNuts

Washing machine use

Using SoapNuts ensures your laundry is fresh with incredible softness without the need for fabric softener.

Add 6-8 SoapNuts to the washbag provided & place inside the washing machine with your clothes. SoapNuts produce low suds & are suitable for use in both front & top loading machines.

Recommended water temperature up 90°C.
The rinse cycle need not be used.

If you enjoy scented laundry add 3-5 drops of essential oil to the washbag.

The shells, powder and the sachets are compostable.
Please through them on your compost heap after using.

Dishwasher use

Place 5-6 SoapNuts into the washbag and secure to the cutlery holder. You may add vinegar to the rinse aid dispenser for sparkling clean glasses.

Making Liquid SoapNuts

Simmer a handful of SoapNuts on the stove in 4 cups of water for 10 minutes. Cool & strain liquid into a bottle.

Using SoapNuts Liquid

All purpose cleaner

Keep the SoapNuts liquid in a spray bottle and use to clean the bathroom, kitchen, and floors. For fragrance add a 3-5 drops of essential oil (optional).

Jewellery cleaner

Soak your jewellery in the liquid for a few minutes. Use an old soft toothbrush to gently remove debris. Rinse with clean water and polish with a dry cloth.

Window & glass cleaner

Fill a spray bottle with 250ml water, 15ml vinegar and 15ml soap nuts liquid. Spray and wipe windows or mirrors clean. Polish with newspaper.

In the dishwasher

Add 2-3 caps of SoapNut liquid into the detergent compartment and wash as normal. Add vinegar as a rinse agent.

In the washing machine

Add 2-3 caps of SoapNut liquid into the detergent compartment and wash as normal.

Liquid hand soap and shampoo

Fill a squirt or pump bottle with the liquid and use to wash your hands or hair.

Pet shampoo

Add the liquid to a pump bottle to wash your pet's fur. It will leave the fur soft, clean and helps repel pests.

Plant wash & pest repellent

Add 250ml water, 15ml SoapNuts liquid and 15ml Neem oil (optional) to a clean spray bottle. Shake well.

Handwashing silks & delicates

Add 15ml SoapNuts liquid to warm water. Gently wash your delicate clothes. Rinse with warm water and hang or lay flat to dry.

Using SoapNut Powder

Washing machine use

Place 2-3 teaspoons of powder into a washbag and wash with your clothes.

Dishwasher use

Add 1-2 teaspoons of powder into a wahsbag and secure to cutlery holder. Add vinegar to the rinse aid dispenser for sparkling clean glasses.

Bathing

Add 1-2 teaspoons of powder to a bath.

Bodyscrub

Mix powder into a thin paste –suitable for all skintypes.

Detoxify food

Add 1 teaspoon of powder to 1 litre of water and soak fruit and veges for 10 minutes to remove potentially harmful residues and chemicals. Rinse.

Jewellery cleaner

Add a few drops of water to a teaspoon of powder to make a paste. Rub paste onto jewellery, rinse and polish with a cloth.

Carwash

Mix 3-4 teaspoons of powder in a bucket of water and wash the car as usual and polish and shine when dry.

Hair shampoo

1 teaspoon of powder for short hair
2 teaspoon of powder for long hair

Add water to powder to make a runny paste. Massage paste into the scalp & hair and rinse thoroughly. SoapNuts don't lather. If hair feels slightly stiff use less powder in the next wash. Helps dandruff, protect against lice, and makes hair shiny and healthy. No need to condition hair.
