

Introducing New Commercial

EarthSmart

Manufactured from 100% post consumer waste paper, the EarthSmart paper range:

Is environmentally friendly and sustainable

Is completely biodegradable

Contains no added dyes and fragrances

Is not bleached with chlorine during the recycling process

Diverts paper waste from landfill

Reduces dependency on plantation forests

Uses up to 50% less water (compared to plantation fibre forests)*

Uses up to 44% less energy (compared to plantation fibre products)*

Reduces CO2 and methane (both key greenhouse gases)
